## THE STATE OF NEW HAMPSHIRE

---

To the inhabitants of the Town of Sullivan, in the County of Cheshire, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Sullivan on Tuesday, the thirteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing, including one selectman for three years.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

3. To see what sums of money the town will raise in addition to that required by law for building and repairing highways and bridges, or take any action relating thereto.

4. To see if the town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Cheshire Road, so called, and to raise the amount of money required by the state, or take any action relating thereto.

5. To see if the town will vote to buy a road machine and raise money for the same, or take any action relating thereto.

6. To see if the town will vote to pay for digging graves and going with the town hearse.

7. To see what sums of money the town will raise in addition to that required by law for the support of the public library.

8. To see if the town will vote to raise money for Memorial Day, or take any action thereon.

9. To see if the town will vote to raise a sum of money to pay for breaking roads or take any action relating thereto.

10. To see if the town will authorize the selectmen to borrow money on the credit of the town.

11. To see if the town will vote to help stamp out the white pine blister disease and raise money for the same or take any action relating thereto.

12. To bring in your ballots upon the question as to whether the amendment proposed by the Convention to revise the Constitution shall be approved.

13. To hear the reports of agents, auditors or committees heretofore chosen, or take any action thereon.

14. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 21st day of February, in the year of our Lord nineteen hundred and twenty-three.

HERBERT S. CURRIER,  
EDWARD L. JEWETT,  
FRANK L. RAWSON,  
Selectmen of Sullivan.

A true copy of Warrant—Attest:

HERBERT S. CURRIER,  
EDWARD L. JEWETT,  
FRANK L. RAWSON,  
Selectmen of Sullivan.

## LIBRARIAN'S REPORT

---

The number of volumes in the library are four hundred and five. Also four National Geographic Magazines besides the Sullivan History. Four hundred and fifty-nine have been taken out by thirty-six patrons. One dollar fines.

LILLIAN A. BROWN,

Librarian for the East part.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Nelson :

I submit my fourth annual report as superintendent of schools for the supervisory union number 38.

I. SCHOOL PROGRESS. In the district as a whole the progress of the schools during the school year 1921-1922 was fairly satisfactory. Every school in the district was open for the required thirty-six weeks. The teachers were, with a few exceptions, well qualified and did good work. The attendance was about the same as the state average. The number of pupils who failed of promotion to the next grade was small.

This year all schools opened on schedule and have suffered no interruptions up to this time. There was the usual number of changes in teachers, amounting to nearly one-half the whole number in the district, but the average quality of teachers is better than we have had in any year since the close of the World War. Attendance so far is even better than it was last year, except in a few localities where heavy snow has made it difficult for pupils who have long distances to go. The average attendance for the district for September was 96.3 per cent, for October the same; for November 98.2 per cent; and for December and part of January 96.8 per cent.

Improvements have been made this year along several lines: (1) The general guidance of teachers in organizing their schools have been made more effective and reports are required at frequent intervals showing the progress and quality

of the work in all classes as well as attendance. (2) A new series of Arithmetic texts has been introduced and for supplementary material the Studebaker Practice Tests provide practice in the four fundamental processes in an efficient and economical way. (3) The Houston method of writing, which was introduced last year on trial, has been extended to all the schools with full equipment of copy books and the results are apparent in an improvement in the quality of handwriting. (4) A spelling book is now in use that is not merely a list of words; it was prepared from a careful study of actual needs and the words are carefully graded, and an economical method of teaching is emphasized. (5) The new series of Geography texts by Brigham and McFarlane brings instruction in that subject up to date, both the maps and the text having been revised since the World War.

II. TEACHERS. The shortage of teachers existing throughout the state since the war has been relieved to a great extent; there are teachers enough to go around, but we have filled out the ranks with a large number of girls just out of high school with only one summer school session for professional training. The Normal Schools provide each year less than half enough trained teachers to meet the needs of the state, so that it is not possible to secure teachers for the rural schools from that source. Increased facilities at the Normal Schools, with the proposed new dormitories, is an imperative need.

Salaries have advanced somewhat year by year and the salaries of good teachers ought not to be less at any time than they are now, but the inexperienced and untrained teachers are paid too much in proportion. We must pay a living wage to all teachers employed but we ought not to pay one who has invested neither time nor money in preparation for her work as much as we pay one who has spent several years in special training.

We need just as good teachers in the rural schools as in

the village schools, and in the state aided towns we can pay them as much as the village teacher—when we can get the trained teacher.

III. SCHOOL FINANCES. It is the intent of the school law that was enacted in 1919 that the local expenditures for elementary schools throughout the state should be equalized. The following table shows to what extent this has been realized in the eight towns of this district, and the figures are fairly representative of the situation throughout the state. The figures are for the school year 1921-1922.

	Position in list of 256 towns.	Elementary school cost per \$1,000.	State Aid payments per \$1,000.	Local expenditure per \$1,000.
Sullivan,	16th	\$12.30	\$7.37	\$4.93
Marlboro,	23rd	9.98	4.27	5.71
Gilsum,	27th	11.60	5.59	6.01
Surry,	152nd	6.85	.44	6.41
Harrisville,	189th	5.56	.01	5.55
Stoddard,	196th	6.02	none	6.02
Roxbury,	201st	5.59	none	5.59
Nelson,	228th	4.31	none	4.31

The table should be read as follows: In the list of 256 school districts in the state, arranged according to the expenditures per \$1,000 of equalized valuation **for all school purposes** in 1921-1922, Sullivan (for example) stood 16th, and the cost of **elementary schools** was equivalent to a tax of \$12.30 per \$1,000; of this amount the state paid \$7.37 in state aid, and the district paid \$4.93. (Surry and Harrisville did not receive the full amount for which their budgets were approved because the legislature of 1921 did not appropriate enough to meet all the approved budgets).

With improvements in the administration of the law with further experience, and especially if the legislature should

make its appropriations large enough to meet all approved demands, we may expect to find that local expenditures for maintenance of elementary schools will "level off" more nearly at a uniform figure that will be somewhat above \$5.00 per \$1,000.

In estimating the amounts necessary for the district to raise at the coming March meeting, the school boards should have the figures of the above table in mind and where necessary ask for more than the five-dollar tax. The amount of state aid to be allowed for next year cannot be known definitely until the legislature has passed the appropriation bill, but the State Board of Education has asked for a sum that will provide for the approved demands of all the districts as determined from the budgets submitted last September.

The amounts needed for the school year 1923-1924 (see the school board's estimates) may be divided into two groups; one group will consist of the statutory requirements for high school tuition and per capita tax to be assessed by the selectmen without any vote of the district, and the "excess salary" of the superintendent which is determined by the joint school boards of the district in May; the other group consists of the salaries of district officers and the general appropriation for support of schools, the estimates for which are subject to change by vote of the district at its March meeting.

IV. SCHOOL NEEDS. I believe that a beginning should be made this year on the improvements that are needed so much at the East Sullivan schoolhouse. You have wisely delayed repairs there until the time should come when alterations could be made, and the building is in need of some repairs. Alterations similar to those at the Center school should be made, including an additional window on the north side, removal of the old paper and tinting the walls, patching and whitening the ceiling, a new toilet connected with the school-room at the rear of the building, new desks, and eventually a

new floor. That is doubtless too much to undertake in any one year, and it is hard to say which should be undertaken first, except that the toilet arrangements at present are bad and that should be a part of the first year's work. If that could be remedied and along with that the renovating of the walls and ceiling and the additional window, all at the same time, that would complete the carpenter work and painting all in one job with some saving probably over the cost of doing that much in two jobs. I suggest that estimates of the cost be prepared by some local carpenter, so that the matter may be discussed at the March meeting.

Respectfully,

VERNON S. AMES,

Superintendent.

Marlboro, N. H., February 16, 1923.
